

TECHNICAL DATA SHEET MOTORS LIVE 20W50

PRODUCT DESCRIPTION AND USE

20W50 is a diesel engine oil that can be used in all seasons, developed for use in diesel engines operating under heavy conditions. It is formulated by adding high quality performance additives to quality base oils. It provides reduction in maintenance costs and long engine life. It prevents the formation of wear and corrosion. It reduces the formation of sediment. It prevents oil thickening caused by soot formation.

Properties

- Provides easily the first work at low temperatures by its excellent viscosity.
- Advanced additive system keeps engine parts clean by controlling formation of deposit and sludge.
- Excellent viscosity control features provides fuel economy and long service life.
- Provides excellent protection against oil thickening, high temperature deposits, sludge buildup, oil degradation and corrosion.

TYPICAL PROPERTIES

TEST	UNIT	METHOD	20W50
Colour	-	ASTM D 6045	Yellow
Density ,@ 15 °C	g/cm ³	ASTM 4052	0,88-0,90
K. Viscosity,@ 100 °C	cSt	ASTM D 445	16.3-21.9
Flash Point	°C	ASTM D 92	Min.220
Pour Point	°C	ASTM D 97	-21

*Values may differ from production to production.
